

WHEEL RISERS AND TRUCK LEVELERS

IMPROVE LOADING DOCK OPERATIONS
SAFELY AND COST EFFECTIVELY

RITE·HITE®

Safely service a variety of trailers

Rite-Hite Wheel Risers and Truck Levelers are engineered for your specific application to allow you to safely service a variety of trailers at the appropriate dock height. Loading or unloading trailers at or above dock height helps eliminate interference from bumpers or the building floor, reducing product and equipment damage.

Wheel Risers and Truck Levelers also provide a cost-effective solution to maximize loading dock capabilities, without costly pits or building construction.

Wheel risers

Static Wheel Risers

- ▶ Allow trailers to be serviced at optimal position just above dock height
- ▶ Increase productivity
- ▶ Virtually no maintenance
- ▶ 1-year parts and labor warranty
- ▶ Optional "run-off guards" / wheel guides available
- ▶ Widths in double 24" (610 mm), 36" (914 mm) decks or full width 120" (3048 mm)

Static Wheel Riser

Custom Wheel Riser

Adjustable Wheel Risers

- ▶ Unique bridge design provides smooth operation regardless of trailer axle position by matching trailer bed height to loading dock floor, while allowing water to flow beneath
- ▶ Support design allows height to be adjusted before or after installation
- ▶ 1-year parts and labor warranty

Adjustable Wheel Riser

Pit Filler Wheel Risers

- ▶ Deck spans over drains allowing access and easy maintenance
- ▶ Reduce trailer height change due to sloped drive approaches
- ▶ 1-year parts and labor warranty

Pit Filler

Collapsible Wheel Risers

- ▶ Improve trailer serviceability with two specifically designed heights to safely access the trailer
- ▶ Hydraulically raised and lowered prior to truck positioning
- ▶ Bridge drains and compound approaches
- ▶ Utilize existing vehicle restraints
- ▶ 1-year parts and labor warranty

Raised

Collapsed

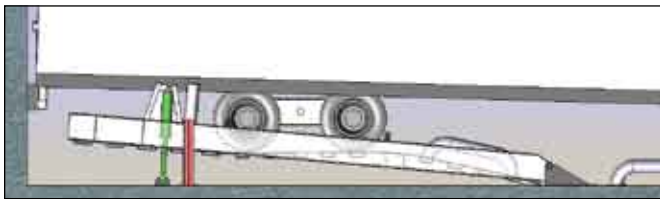

WHEEL RISERS AND TRUCK LEVELERS

Truck Levelers

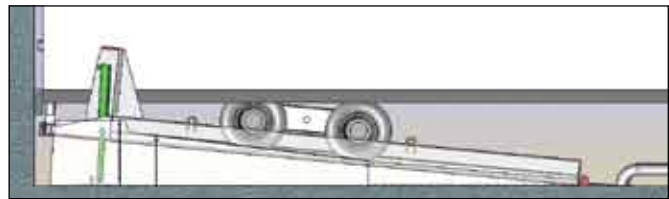

Innovative surface mounted truck levelers lift and position the trailer bed, clear from bumper or pit wall obstructions, allowing full-width trailer access. Dual-wheel guides ensure consistent, on-center trailer positioning.

Z-Deck™ Truck Leveler

- ▶ Unique Z-shaped deck design helps minimize the slope of the lifting surface, keeping tires even and reducing opportunity for trailers to move away from the dock
- ▶ Profile keeps tires angled towards dock
- ▶ Low-profile, 1-5/8" (42 mm) collapsed height at rear of platform
- ▶ Utilizing a wall-mounted vehicle restraint is recommended
- ▶ 5-year structural and hydraulic warranty

Z-Deck

ThinMan

ThinMan™ Truck Leveler/Vehicle Restraint

- ▶ Provides full, unobstructed access to virtually any trailer or load
- ▶ Integrated Global Wheel-Lok restraint positions automatically as the trailer backs in to help prevent separation from the dock
- ▶ Services a wide variety of trailers, including lift gates and drop frames
- ▶ Low-profile, 1-1/8" (29 mm) collapsed height
- ▶ 5-year structural and hydraulic warranty

Dock Levelers

Smooth transition is created between the loading dock floor and the trailer, minimizing jolts to forklift operators and product and equipment damage. Integrated steel barrier prevents drop-off accidents at vacant dock positions.

Vehicle Restraints

The most effective way to prevent accidents caused by trailer separation and vertical or horizontal movement.

Frommelt® Seals and Shelters

A variety of top designs effectively maintain environmental control and protect products, equipment and personnel from weather-related hazards.

FasTrax™ High-Performance Industrial Doors

The safest, most efficient and most reliable doors in the industry.

Combination Controls

The Dok-Commander® system integrates multiple control components at each dock position for a total dock safety system.

Barrier Systems

Discover new cost-effective solutions to help keep your people safe and reduce equipment and product damage.
